

MSCS Benchmark Writing: WriteVue Data Dashboard for Administrators

School level administrators see data for their school only, whereas **district level administrators** can sort by school or region. **Teachers & students** see scores and writing in their MY Access! Portfolio.

Logging in:

We have streamlined the login process for the 26-27 school year. Go to app.writevue.com to log in. If this is your first time logging in this year, select “Forgot Password” and follow the steps to create a new password. Use your school email address as your username. **See the document “Step by Step Instructions for Logging into WriteVue” on the last page of these instructions for images and additional information.* If you are unable to change your password, it means your MSCS username has not yet been entered into the WriteVue system for 26-27. Simply email India Monroe at imonroe@vantage.com if you need assistance.

The WriteVue Dashboard:

There are **4 tabs** on top:

Storyboard Viewing as: Unfiltered Edit X

Memphis-Shelby County Schools (SY26-27)

BENCHMARK WRITING INFO PARTICIPATION DATA **DIAGNOSTICS (District)** CLASSROOM (Teacher)

- **Participation:** Shows which students in your school have started, completed, and not started the benchmarks.
- **Diagnostics:** Shows various displays of score data for each benchmark diagnostic by whole school, grade, class, and student.
- **Classroom (teacher):** Shows data related to assignments teachers have created and assigned to students in MY Access! outside of the benchmarks.
- **Benchmark Categories for Comparison:** Lists all MSCS 26-27 benchmark titles and genres for each grade level. It also shows the rubrics that help users understand the score types shown in the data displays.

Scoring:

For the first diagnostic, you will initially see student scores on the 4-point MY Access! rubric. This rubric has a holistic score and then a score in each of the 5 skill areas. **Scores of 3 and 4 are considered “Proficient.”*

In late September, the TN Ready rubric will be integrated into the platform. At that time, all previous scores for 26-27 and future scores will be shown as a holistic score out of 4 and a score out of 4 in the **4 TN Ready skill categories!**

Filtering in for Data: On each tab, you can select which benchmark data to view. *The other filters are generally left on the default.*

District administrators see two displays close the top that show a comparison of scores. Both show the average holistic (proficiency) scores: one is by grade and one is by region. School administrators will see the comparison by grade only.

As you scroll down, you will see different data displays that show scores by grade level, teacher, assignment, and student. **All of these displays can be downloaded as Excel sheets.** There is a light gray arrow in the right-hand corner that the user clicks to create an Excel sheet. Any time there is a +, the user can click on it to see a deeper level of data. All of the column sizes are adjustable by dragging the border of the column in one direction.

DIAGNOSTIC DETAILS

School / Grade ...	Students	Submissions	Avg Holistic ...	Avg Focus M...	Avg Develop...	Avg Organiz...	Avg Languag...	Avg Gramma...
6	237	791	2.4	2.3	2.2	2.2	2.4	2.3
Adria Ro...	115	402	2.5	2.4	2.3	2.3	2.5	2.4
A Diff...	115	102	2.3	2.2	2.1	2.1	2.3	2.2
Feedi...	115	95	2.6	2.5	2.3	2.3	2.6	2.6
Robots	115	110	2.7	2.7	2.4	2.5	2.7	2.6
Seat ...	115	95	2.4	2.4	2.2	2.2	2.4	2.3

Some displays may contain the same information, but the titles of each display indicate what data will be downloaded to an Excel sheet. For example, if a user simply wants to download the overall holistic scores by grade level, the data display with that title will show scores by grade level but will *not* populate teacher, assignment, & student data onto the Excel sheet, while the one titled “Holistic Scores- Downloadable by Student” will.

Step by Step Instructions for Logging in to WriteVue

WriteVue is for coaches and school/district administrators only. Teachers and students see their writing data through the MY Access! portfolio.

To log into the WriteVue data platform:

Go to app.writevue.com Select “Did you forget your password?”	
Enter your MSCS email address.	
*If you see this message, it means your name is not in our system yet as a MSCS admin or coach. Email imonroe@vantage.com with your name, email, and role and you will be set up in our system and will receive an email back.	

This is the message you should see.

Check your email for the reset link.

The email you receive will look like this from noreply@iseek.ai.

Open the email and click "Reset Password."

Reset your password and then go back to app.writevue.com and log in.

WELCOME!
